

The Survey will be open from  
30th July to 30th September 2021

## Neurodevelopment (ASD ADHD) Survey

## Why are we conducting this survey?

### Who can complete this survey?

Any Parent or Carer of a child/children (0-25) who have been referred to the community paediatric team due to neurodevelopmental differences such as ASD or ADHD.

- ✓ You can complete the survey more than once if you have more than one child with SEND.
- ✓ Your child/young person does not need to have a diagnosis.
- ✓ Your child/young person does not need to have an Education, Health & Care Plan

### Complete the survey and have your voice heard!

Essex Family Forum believes all families need to feel valued, listened to, respected and acknowledged – we are experts because of our lived experiences. It is so important to get our voices heard.

Essex Family Forum is conducting this survey in partnership with the Joint Commissioning Group, which is made up of key representatives across Education, Health, Social Care, and Essex Family Forum.

This survey is being undertaken to address a weakness identified in the Written Statement of Action following the Local Area SEND Inspection in Essex in October 2019.

Parent/carer feedback is a fundamental part of the improvement journey that is being undertaken in Essex. Not only will this survey ensure that Essex Family Forum is accurately representing your views, but it will also help the Joint Commissioning Group to better understand families' experiences and will inform the provision of future services, meaning improved outcomes of children and young people and their families going forward.
