Childcare Reforms Expansion

A clear, concise introduction to the Childcare Reforms Expansion for you to use in your offer and communications.

Introduction to the Childcare Reforms Expansion

Overview of the Childcare Reforms Expansion

What is the Childcare Reforms Expansion?

The Department for Education (DfE) Childcare Reforms Expansion has been designed to better help parents and carers access childcare alongside their work responsibilities. These changes are part of the government's ongoing commitment to support families and enable parents and carers to return to or remain in the workforce, while ensuring their children receive the care they need.

Rollout of wraparound childcare

From September 2024, the National Wraparound Childcare Programme will commence with the ambition that by September 2026 most working parents will be able to access wraparound childcare that is either on their school site or within the local community. This wraparound childcare offer will be available during term time for parents and carers with primary school-aged children.
